

Training and Placement Cell

Introduction

The Training and Placement Cell plays a crucial role in locating job opportunities for students passing out from the college by keeping in touch with reputed firms and industrial establishments. The Cell operates round the year to facilitate contacts between companies and graduates and organizes Placement Drives for the students.

The number of students placed through the campus drives is continuously rising. We have been successful in maintaining our high placement statistics over the years and the fact that our students bear the recession blues with record breaking placements itself is a testimony to our quality. The Placement Cell organizes career guidance programmes for all the students starting from first year. The cell arranges pre-placement training programmes like Mock Interviews, Group Discussions, Resume Writing and Communication Skills Workshop to name a few. It also invites HR Managers from different industries to conduct training programmes for final year students.

Objectives

1. To act as an Interface between Industry– Institute interactions.
2. To form & maintain good relations with the recruiters.
3. To organize Pre- Placement Trainings for the students.
4. To place students in the industry as a part of internship program of 6 weeks as per the university norms.
5. To plan and organize various Placement Drives off and on campus.
6. To organize talks and lectures by industry experts for the students.
